

#4 LIFESTYLE=MEMORIES ARE PRICELESS

Mozambique, Africa, 2003=The Islands to Pretoria, South Africa

We departed the Marlin Inn, on Benguerra Island, in the Islands off the East coast of Mozambique, driving back across the Island to our private airplane that was awaiting us, packed the airplane and took off for the short flight across the bay to Vilancolas, Mozambique to clear customs there. We flew on, just the 4 of us soaring way across Africa to Pitsersburg, South Africa to again clear customs and then on into Pretoria. We had a late lunch with the DuPreez clan, Dreyer, Angee (newly wed to darling Jaco) and the effervescent Sandy. We have loved watching these children grow up to be such super young adults. We then were the houseguests of Sue and Peet for the evening just staying in for the night. We stayed in one of their guest suites that is filled with trophies Peet has gotten through the years. Just beautiful stuffed huge animals keeping us company.

We could easily have come home right then, filled with so many memories, rested and loving life! We tried to send emails but it was very slow as their home is a country home. We called our children to let them know that we were safe and sound, out of the bush. It was great to hear their voices. They were all doing terrific and so incredibly interested in our trip! We did not know what was ahead for our next adventure. The following day Sue was kind enough to take us to the Johannesburg airport in her BMW and Dreyer followed in his truck bringing our luggage. We said farewell at the airport and began the next part of our journey.....Sabi Sands, on the outskirts of Kruger National Park!
